

ffnn::neuron::Neuron
< ValueType >

```
graph BT; A["ffnn::neuron::LeakyRectifiedLinear< ValueType, _P, _B >"] --> B["ffnn::neuron::Neuron< ValueType >"]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a box representing the base class, `ffnn::neuron::LeakyRectifiedLinear< ValueType, _P, _B >`, which has a light gray background. A blue arrow points vertically upwards from this box to a second box above it. The top box represents the derived class, `ffnn::neuron::Neuron< ValueType >`, and has a white background with a black border.
